Aims and Scopes:

The International Congress on Logistics and SCM Systems (ICLS) is organized by the International Federation of Logistics & SCM Systems (IFLS) and the Asian Pacific Federation of Logistics & SCM Systems (APFLS). The congress aims to provide an international forum for leading academics, researchers and practitioners to discuss and exchange ideas on the latest developments and to seek opportunities for collaboration among the participants as well as to promote excellence in the field.

The 13th International Congress on Logistics and SCM Systems (ICLS2018) will be held in Ho Chi Minh City, Vietnam, July 29 – August 1, 2018. It is being organized by Department of Industrial Systems and Engineering, International University, National Vietnam University, Vietnam. Main theme of the congress is focused on but not limited to, “Sustainable and Smart Supply Chain”. This congress is centered on new development and disruptive innovations in sustainable and smart supply chain in the rise of Industrial Revolution 4.0. The ICLS2018 also encourages multidisciplinary networks and platforms for academics and industries to identify the latest innovations, trends, challenges, future issues and solutions in the field of Logistic and Supply Chain Management. The congress welcomes both research and practical contributions from different disciplines. The wider audience will benefit from the knowledge and experience of leading practitioners and academics in this area. Authors are invited to submit original and unpublished research results or best practices that have not been submitted for publication elsewhere.
